## **DETAILED ACTION**

## Remarks

1. 103(a) rejection to claims 1-9 is withdrawn.

- 2. Claims 1-9 are pending in the application.
- 3. IDS filed 1/9/03 has been considered by the examiner, as set forth in this Office Action.

## Allowable Subject Matter

- 4. Claims 1-9 are allowed.
- 5. The following is an examiner's statement of reasons for allowance:

The prior art of record, Brinker et al. (US 6,387,453), teaches a method for vaporization of liquid of organic feedstock made of an organic oligomer (col. 6, lines 28-30) capable of forming an organic polymer insulation film (i.e. a low dielectric constant film, col. 2, lines 65-67), which comprises:

- mixing the liquid organic feedstock with solvent, surfactant form a mixed fluid (col.
   11, claim1);
- spraying, using spray-coating technique (col. 2, lines 25-29) the mixed fluid on a substrate;
- heating the mixed fluid (col. 11, claim 2); and
- vaporizing (i.e. evaporating) the liquid organic feedstock (col. 11, claim 1).

In re claims 1 and 5, Brinker et al. neither teach nor suggest mixing the liquid organic feedstock with a carrier gas at a temperature lower than a heat polymerization reaction starting temperature of the liquid organic feedstock to form a gas-liquid mixed fluid; spraying the gas-

fluid mixed fluid on a vaporization vacuum chamber to form an aerosol of the liquid organic feedstock and heating the aerosol.

In re claim 9, Brinker et al. neither teach nor suggest providing a vaporization device for heating an aerosol of liquid organic feedstock to vaporize the liquid organic feedstock to form vaporized organic feedstock, and connecting the vaporizing device directly to a plasma polymerization reaction chamber.

In the examiner's opinion, it would not have been obvious to one of the ordinary skill in the art, at the time of the invention was made, to modify the prior-art method to arrive the instant invention.

- 6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hsien-Ming Lee whose telephone number is 571-272-1863. The examiner can normally be reached on M-F (9:00  $\sim$  5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on 571-272-1855.
